Eligible Work Items	The Standard 203(k) can be used to finance painting, room additions, decks, and other items, even if the home does not need any other improvements. However, health, safety, and energy conservation items must be addressed prior to completing general home improvements. All rehabilitation construction and/or additions financed with Section 203(k) mortgage proceeds must comply with the guidance regarding required improvements as described in the guides.
Ineligible Work Items	<ul style="list-style-type: none"> ● Luxury items (such as hot tubs, swimming pools, fountains, etc.) ● Purchasing a dwelling on another site, and moving it onto a new foundation on the mortgaged property ● Demolishing or razing a home as a part of the rehabilitation work ● Additions or alterations to support commercial use or to equip or refurbish space for ● Any repair or improvement requiring a work schedule longer than six (6) months ● Any repair that results in work not starting within 30 days of loan closing
Contractors	<p>All contractors must be accepted by MiMutual and provide:</p> <ul style="list-style-type: none"> ● MiMutual's Contractor Acceptance Form, fully completed ● Estimates for work using MiMutual's 203(k) Contractor Proposal (or equivalent) ● Signed and dated W-9 ● Certificate of Liability Insurance ● Copy of license (required unless state does not require contractor licensure) ● Letters of reference (required when no license is available)
Fee Consultant	Prior to the appraisal, a HUD-accepted Fee Consultant must visit the site to ensure compliance with program requirements. <i>The utilities should be turned on for this site review to take place; however, if the home is vacant and the utilities are not on, then a contingency reserve of at least 15% is required.</i> Subsequent required inspections may also be performed by the Fee Consultant.
Architectural Exhibits	<p>The borrower may decide to employ an architect or an independent consultant to prepare the proposal. MiMutual must be provided with the following architectural exhibits that clearly show the scope of work to be accomplished:</p> <p>Plot Plan of the Site Required only if a new addition is being made to the existing structure. It must show the location of the structure(s), walks, drives, streets, and other relevant details. It must also include finished grade elevations at the property corners and building corners, and show the required flood elevation.</p> <p>Proposed Interior Plan of the Dwelling Must show where structural or planning changes are contemplated, including an addition to the dwelling. An existing plan is no longer required.</p> <p>Work Write-Up and Cost Estimate Any format may be used for these documents; however, quantity and the cost of each item must be shown. Also include a complete description of the work for each item (where necessary). The consultant who prepares the work write-up and cost estimate (or an architect, engineering or home inspection service) needs to inspect the property to assure: (1) there are no rodents, dry rot, termites and other infestation; (2) there are no defects that will affect the health and safety of the occupants; (3) the adequacy of the existing structural, heating, plumbing, electrical and roofing systems; and (4) the upgrading of thermal protection (where necessary). The consultant must be able to prepare the work write-up and cost estimate <i>without using contractor bids.</i></p>
